TO BE THE BEST PROFESSIONAL THAT I CAN BE

TO BE A PERSON OF PRINCIPLE

THE PLACE TO "BE"

CEU San Pablo University

THE PLACE TO BE
Education should not only be about the chosen field of study (Social, Experimental, Health Sciences, etc.), it should be more comprehensive, empowering us professionally and allowing us to grow as a person. In order to achieve this, at CEU San Pablo University we give our students solid values, which are based on Christian Humanism.

The pillars of our education have allowed CEU San Pablo University to set the standards of higher education. Today, many of our alumni are some of the most qualified and recognized entrepreneurs and professionals of our country, and are now sharing the School’s values and spirit.

For these reasons, we trust that when you make your decision about what you want to be and which school will allow you to be that, you will choose us. We look forward to starting this journey with you and to being there for you along the way.

SCHOOL OF MEDICINE

For over 40 years, the CEU San Pablo University School of Medicine has been true to the exemplary motto E pluribus unum, which is Latin for “out of many, one”. The School’s mission is for students to generate knowledge through research, acquire knowledge through learning, and apply knowledge through practice.

As a student, you are given the chance to participate in our international exchange student programs, thanks to our multiple agreements abroad. You will also broaden your career prospects by working at a hospital (HM Hospitals Group), at our dental clinic, or at various public and private health care institutions.

We will ensure that you become a competent professional. Healthcare providers are known for their commitment to society. At the School, we look forward to seeing you improve the quality of life of others, by providing cure whenever possible, and offering relief and comfort.
10 REASONS TO STUDY AT CEU SAN PABLO UNIVERSITY

01 TRADITION
More than 80 years of experience.

02 QUALITY
Our study plans are carefully designed to ensure rigorous learning, demanding classes, and the highest teaching requirements.

03 RESEARCH
Many of our resources are allotted to projects seeking the improvement of real situations in today’s world.

04 SCHOLARSHIPS AND FINANCIAL AID PROGRAMS
Our university tops the list, among private schools in Spain, for the number of scholarships granted to students.

05 UNIVERSITY LIFE
Besides the classes, CEU San Pablo University offers endless activities which will enrich your academic and extra-academic life.

06 INTERNATIONAL NETWORK
Students have access to the most prestigious universities in the world with international and bilingual degrees, programs and internships abroad, our Summer University, and international guest professors.

07 FACULTY
Our top-of-the-line team includes more than 550 PhDs. All of our professors are highly experienced professionals and researchers.

08 INTERNSHIPS AND CAREER OPPORTUNITIES
We require and facilitate that our students complete an internship before graduating so they can learn the needed skills for establishing a career in the real world.

09 GRADUATE AND POSTGRADUATE PROGRAMS
Our PhD programs meet the highest quality standards, as accredited by ANECA. In addition, we offer more than 46 Master’s degrees for those seeking specializations.

10 OUR FACILITIES
Our students can enjoy our world-class facilities and equipment from day one.
In recent years, 80% percent of CEU San Pablo University undergraduate students have been able to join the workforce shortly after graduation. This percentage rises to 90% for graduate and postgraduate students.

These impressive numbers can be explained by our close ties to the professional world, the internships we offer at top-notch companies (more than 7,000 internship agreements), and an individualized career orientation service.

**INTERNSHIPS & EMPLOYABILITY**

80%+
EMPLOYABILITY FOR UNDERGRADUATE STUDENTS

90%+
EMPLOYABILITY FOR GRADUATE AND POSTGRADUATE STUDENTS

7,000+
INTERNSHIP AGREEMENTS

5,500+
OFFERED INTERNSHIPS

**PROFESSIONAL CAREER SERVICE**

In shaping their professional career, both current students and alumni can rely on our help and support. We provide them with orientation not only for their immediate future, but for their long-term professional goals.

** PROPRIETARY DEGREE IN VALUES AND LEADERSHIP**

We are committed to the comprehensive education of students. Therefore, we offer a Proprietary Degree in Values and Leadership.

This innovative initiative — the first in Spain — promotes the development of social skills and abilities for leadership, teamwork, persuasive communication, decision making, change management, and the development of mechanisms of cross-cutting views and relationships.
RESEARCH & FACULTY

Good professors attract good students, and vice versa.

For this circle to work, the professor must have a double vocation: training students, and a commitment to society through new discoveries, inventions, and creations.

RESEARCH

Research is both a means and an end for success at CEU San Pablo University. We are proud to have a team of prestigious researchers and we provide them with world-class facilities to ensure the best possible conditions for the development of their projects.

The true essence of research — that is, to discover and generate knowledge that the public as a whole can benefit from — is a value that CEU San Pablo University strives to make its own.

FACULTY

Our team of professors are not only renowned for their extensive research experience. Many of our faculty members have been accredited by national quality assurance agencies, and go the extra mile when it comes to supporting the student community.

More than 550 of them have PhDs. In addition, many of them work in businesses outside the school, enabling them to bring a practical, hands-on approach to their students.
The new challenges of an increasingly globalized world are today’s reality. That is why CEU San Pablo University has more than 350 international agreements.

Thanks to these programs, including the Erasmus+ Program, students could potentially enroll in several study-abroad options during their Bachelor’s degree.

Visit www.uspceu.es to learn about all the places where you could study and get all the information you need on international degrees.

Internalization is one of the main pillars of the CEU San Pablo University School of Medicine. As a student, you will have access to foreign universities, and the chance to discover new cultures and societies. This is an experience that will enrich you, both personally and professionally. Having an international degree will increase your employability and strengthen your professional skills.

INTERNATIONAL DEGREES FOR MEDICINE STUDENTS

Dentistry
Physiotherapy

*This certificate is not an officially recognized degree.
EDUCATIONAL OFFER

SCHOOL OF MEDICINE

- Medicine
- Nursing
- Physiotherapy
- Dentistry
- Psychology
- Genetics*

*Pending implementation
BACHELOR’S DEGREE IN MEDICINE

OBJECTIVES
Having our students become professionals with a strong commitment to a more humane and caring society.
Providing excellent scientific education and a solid healthcare and research foundation.
Offering rigorous practical training both at our laboratories and at HM Hospitals.

CAREER PROSPECTS

- MIR Program (Spanish program for medical interns and residents), valid in the entire EU
- Clinical practice in public and private healthcare institutions
- Health sector: healthcare, community care, and promotion of health, both at public and private facilities
- Teaching and research
- Hospital and healthcare management
- Medical practice within the military
- Volunteering opportunities at institutional and non-governmental organizations
- Application of new technologies for the medical field: remote diagnosis, telemedicine, etc.
- Sports medicine, for high-level athletes
- Insurance companies: prevention and treatment of work and traffic accidents

First Year
- Anatomy I 6
- Cellular Biology 7
- General Biochemistry 7
- Medical Physics 4
- Anthropology 6
- General Histology 6
- Metabolic Biochemistry 6
- Social Doctrine of the Catholic Church 6
- Biostatistics 6

Second Year
- English 6
- Special Histology 7
- Molecular Biology 4.5
- Physiology I 4.5
- History and Methodology of Medical Research 6
- Physiology II 9
- Immunology 3
- Neuroscience 7.5
- Human Genetics 4.5
- Medical Psychology 6

Third Year
- Pathophysiology 7.5
- Immunopathology 3
- Basic Pharmacology 7.5
- Pathological Anatomy 6
- Ethics and Communication 6
- General Radiology 6
- Semiology 6
- Family Medicine 3
- Microbiology and Parasitology 6
- Surgery, Anesthesia and Resuscitation 6
- Molecular Pathology 3

Fourth Year
- Medical Pathology I 6
- Surgical Pathology I 6
- Nutrition and Dietetics 3
- Otolaryngology 6
- Gynecology 6
- Geriatrics and Palliative Care 3
- Medical Pathology II 6
- Surgical Pathology II 3
- Ophthalmology 4
- Neonatal and Child Pathology 5
- Preventive Medicine and Public Health 4
- Introduction to Experimental and Translational Medicine * 6
- Medical Pathogenesis * 3
- Clinical Genetics * 3
- Medical Simulation * 3

Fifth Year
- Medical Pathology III 6
- Surgical Pathology III 6
- Pediatrics I 3
- Clinical Pharmacology 6
- Dermatology 3
- Medical Pathology IV 4
- Surgical Pathology IV 3
- Pediatrics II 3
- Psychiatry 6
- Rehabilitation 5
- Basics of Healthcare Economics and Management of Medical Resources * 6
- Legal Medicine * 3
- Supervised Clinical Practice I 3
- Supervised Clinical Practice II 6

Sixth Year
- Legal and Forensic Medicine 6
- Medical Pathology V 6
- Dissertation 6
- Supervised Clinical Practice III 18
- Supervised Clinical Practice IV 24

Preparation of MIR program, years 4-6 of degree.

TOTAL ECTS 360

* Electives. Choose only one.

ECTS: European Credit Transfer and Accumulation System
BACHELOR’S DEGREE IN NURSING

OBJECTIVES

Providing students with the necessary knowledge to assess, identify, and act according to the health and care needs of patients.

Offering an excellent practical training at HM hospitals and other facilities with whom we have agreements.

Promoting international student mobility in health institutions around the world.

CAREER PROSPECTS

- Primary care
- Public and private hospitals
- Military healthcare
- Nursing homes for the elder
- Mental health institutions
- Work insurance associations
- Government agencies
- Schools
- Non-profit organizations (NGOs)
- Teaching or research career

BACHELOR’S DEGREE IN PHYSIOTHERAPY

OBJECTIVES

Giving students the necessary training to become professional physiotherapists in the healthcare, teaching or research fields, in Spain or abroad.

Providing a practical training from the first year, with simulations in small groups, and subsequent clinical practice sessions, both at HM hospitals, and at other collaborating centers.

Promoting international education with the opportunity to study in English, with volunteer international internships, mobility agreements, etc.

CAREER PROSPECTS

• Physical Therapist at hospitals and primary care clinics
• Physical Therapist at specialized units: burn unit, paraplegic unit, etc.
• Physical Therapist at insurance companies
• Physical Therapist at specialized medical associations: Parkinson’s, Fibromyalgia, Multiple Sclerosis, etc.
• Expert in prevention and treatment in the workplace
• Forensic Physical Therapist
• Physical Therapist at day care centers
• University, High School, and Associate’s Degree Educator

First Year

- Anatomy of the Locomotor System 6
- Biology 6
- Anthropology 6
- Biophysics 3
- Foundation of Physiotherapy 6
- General Anatomy I 3
- Physiology 6
- Assessment in Physiotherapy 6
- Study of the Human Movement 3
- General Anatomy II 3
- Physical Agents I 4
- Physical Agents II 4
- Principles of Kinesitherapy 4

Second Year

- Practical Basis of Kinesitherapy 6
- General Pathology 6
- Psychosocial Sciences Applied to Physiotherapy 6
- Medical and Surgical Conditions I 3
- Physical Agents III 6
- Statistics Applied to Health Sciences 4.5
- Specific Methods in Traumatology and Orthopedics 4.5
- Manual Therapy I 4.5
- Physiotherapy in Trauma and Orthopaedic Processes 6
- Medical and Surgical Conditions II 3
- Modern Language 6
- Public Health 3
- Clinical Practice I 3

Third Year

- Medical and Surgical Conditions III 6
- Specific Methods in Child Neurology 4.5
- Manual Therapy II 4.5
- Specific Methods in Circulatory Diseases 3.5
- Health Complementary Techniques 3.5
- Medical and Surgical Conditions IV 5.5
- Legislation and Ethics in Physiotherapy 3
- Research in Health Sciences 3
- Clinical Integration 4.5
- Physiotherapy in Diseases of the Central and Peripheral Nervous System 3
- Physiotherapy in Diseases of the Cardio-Vascular System 3
- Physiotherapy in Diseases of the Cardio-Vascular System 3
- Clinical Practice II 5

Fourth Year

- Physiotherapy in Obstetrics and Genital and Urinary Systems * 3
- Physiotherapy in Physical Activity and Sports * 3
- Physiotherapy in Geriatrics * 3
- Physiotherapy in Temporo-Cervical-Mandibular Dysfunction * 3
- Musculoskeletal Physiotherapy Techniques * 3

BACHELOR’S DEGREE IN DENTISTRY

OBJECTIVES

Turning our students into dentistry professionals committed to a more humane and caring society.

Emphasizing the importance of prevention and pediatric dentistry.

Offering a rigorous practical training both at our laboratories and dental clinics, and at HM hospitals.

CAREER PROSPECTS

- Dentist at own private practice
- Dentist for a private practice or company
- Primary Care Dentist/Specialist in the Public Health System
- Specialized Care Dentist in the Public Health System
- Military Dentist
- Dentist at non-governmental organizations (NGOs)
- Professor in Dental Prosthetics at public or private educational institutions
- University Professor
- Specialist in development aid programs
- Designer of oral health campaigns

BACHELOR’S DEGREE IN PSYCHOLOGY
# Bachelor’s Degree in Genetics*

**Pending implementation**

### Objectives

Providing meaningful training for students interested in the study of genetics, specifically focusing in the healthcare field and its multiple branch applications.

Challenging students captivated by knowledge, application and research in multiple fields of biology and medicine, with a specific focus on genetics, including the study of biomedicine, genomics, forensic genetics and bioethics, etc.

### Career Prospects

- Diagnosis of genetic diseases and counseling for patients and family members
- Forensic genetics, applied to the analysis of biological samples from crime scenes, disasters and catastrophes, paternity and filiation tests, etc.
- Genealogical studies, genetic analysis applied to the classification of species and breeds, determination of purity, diversity, conservation of endangered species
- Genetic services of biotechnology and pharmaceutical companies
- General clinical and applied research in a broad spectrum of fields, such as genetics and human genomics, molecular genetics, animal, plant and microorganism genetics, evolution of species and breeds, human evolution, etc.

UNIVERSITY LIFE

The Student Affairs and University Services Office manages extracurricular activities aimed at enriching the school’s life. We encourage you to partake in these activities so that you can develop new interests and relationships to complement your education.

EXTRACURRICULAR ACTIVITIES

CULTURAL ACTIVITIES
Gastronomy, theater, music, movies, opera, traveling, debate forums, creativity contests, etc.
@CulturalesCEU

SPORTS
We organize internal competitions and participate in inter-university, local and national tournaments.
@DeportesUSPCEU

PASTORAL ACTIVITIES
Open discussion communities, cultural visits, retreats, pilgrimage routes, seminars, debates, etc.

VOLUNTEERING OPPORTUNITIES
Non-profit and awareness campaigns, activities to help those in need, the poor, or marginalized groups.
fb/USPCEU.Voluntariado
UNIVERSITY CAMPUS

**ONE-ON-ONE TUTORING**
We offer one-on-one tutoring programs, where students are able to discuss their daily challenges and receive support and reassurance from their mentor.

**CUTTING-EDGE RESEARCH AND R&D EQUIPMENT**
The School has state-of-the-art facilities for research, development and technological innovation. The Institute for Applied Molecular Medicine offers 10 interdisciplinary programs in various medical and surgical specialties, with international agreements in place.

**ACADEMIC AND SCIENTIFIC ACTIVITIES**
We host national and international conferences, talks, seminars, clinical sessions, courses, workshops, etc., about a wide range of current health and scientific issues.

**INTERNATIONAL PROJECTION**
We have over 30 international agreements with universities and biomedical research institutions around the world.

**CLINICAL PRACTICES**
These include, but are not limited to, practices at hospitals pre-qualified to teach students, at our School’s Dental Clinic, at institutions specialized in psychology and physiotherapy, and at primary care facilities.
**SCHOLARSHIPS & FINANCIAL AID**

The CEU San Pablo University Foundation is the private entity with the highest amounts allotted for scholarships and financial aid in all of Spain. Therefore, we conduct a meticulous analysis of the student’s situation on a case by case basis and take into account their socio-economic and family situation as well.

A committee reviews each application, and distributes the financial aid according to the needs and circumstances of each student. Our goal is that no student be denied access to the degree they wish to pursue for economic reasons.

---

**CEU MERIT PROGRAM SCHOLARSHIPS**

High School GPA of 7+
These scholarships are awarded to students whose High School (3rd and 4th E.S.O. and Bachillerato) GPA is a 7 or higher.
You can apply once you are enrolled in university. Notices of approval/denial are given in the month of June. These scholarships cover 65% of tuition. You may continue to qualify after the first year as long as your GPA is still over 7.
The languages you speak and the sports or cultural and volunteering activities that you participate in will also be taken into account.

**CEU MERIT 100 PROGRAM SCHOLARSHIPS**

High School GPA of 9+
When your High School (3rd and 4th E.S.O. and Bachillerato) GPA is 9 or higher, your tuition fee can be waived completely (100%).
To qualify after the first year, you will have to maintain an average of 8 or higher if you are studying a double degree (over 60 credits) or 8.25 if you are only studying one.
If you meet these criteria, your scholarship will be renewed automatically. Your merits will also be considered when reviewing your application.
The CEU San Pablo University Foundation is committed to its charitable teaching and social purposes. Therefore, it facilitates student access to the School while taking into account their academic performance, as well as the applicant’s socio-economic and family situation. A committee assigned by the Directorate General of the Foundation for this specific purpose reviews each application submitted, and distributes the financial aid according to the needs and circumstances of each student. To qualify for the renewal of financial aid in subsequent years the same requirements from the initial application need to be met.

Students at CEU San Pablo University can apply for scholarships and study aids awarded by the central government which are subject to Royal Decree 1721/2007 of December 21, and to the Ministerial Order that the Spanish Ministry of Education, Culture and Sports publishes each year. They may also request similar aids awarded by the autonomous communities, or public and private entities.

This scholarship was designed to support a permanent group of singers in the University Choir. Eligible students receive a scholarship in exchange for their commitment to participate in all Choir events, whether organized by the university or by the Catholic Association of Propagandists. They can also be asked to participate in other artistic events organized by the Choir itself.

Eligible students will also be given an opportunity to further their musical and vocal knowledge and talent in the Choir, which was founded more than a decade ago and has produced some important artistic and musical results in Spain and abroad. The screening process has two parts: one artistic/vocal in nature and the other one academic; students must pass both to qualify for the scholarship.

In addition to loans and grants provided by public institutions, Banco Santander supports students of CEU San Pablo University by facilitating them access to university.

Furthermore, students of all degrees are provided with a free insurance, called education continuity insurance, which ensures that they will be able to finish their education at the University in the event of the death of the parent(s) or legal guardian(s) responsible for payment of tuition fees.
The University’s graduate and postgraduate department offers a series of master’s and PhD programs focused on the specialization of students to ensure that they can reach their maximum potential in the workforce. Our PhD programs are a one-of-a-kind opportunity for researchers of all fields, who have our world-class facilities at their disposal. The PhD programs meet ANECA’s Quality Standards.

CEU’s International Doctorate School (CEINDO) brings together teams of PhDs with accredited research experience. The university upholds the highest standards of education and academic excellence, with one-on-one mentoring programs in place.

### Master’s Degrees
- Master’s Degree in Pharmaceutical Care and Assistance
- Master’s Degree in Bioethics (in collaboration with UCAV)
- Master’s Degree in Oral Surgery and Implantology
- Master’s Degree in Health Law
- Master’s Degree in Pharmacological Development by Universidad Complutense de Madrid, Universidad de Alcalá and CEU San Pablo University
- Master’s Degree in Cardiac, Diagnostic and Therapeutic Electrophysiology
- Master’s Degree in Nurse Anesthesia
- Master’s Degree in Pediatric and Neonatal Nursing
- Master’s Degree in Emergency and Critical Care Nursing
- Master’s Degree in Emergency and Emergency Transport Nursing
- Master’s Degree in Invasive Physiotherapy
- Master’s Degree in Pediatric Physiotherapy
