

Dentistry

DEGREE IN **DENTISTRY**

Place: **Madrid**

Duration: **5 years**

Academic validity: **300 ECTS**

Practical training

- Latest generation clinical and preclinical facilities where one can gain knowledge and experience in a framework of cutting-edge dentistry.
- Voluntary work experience in dentistry clinics that have an agreement with the University or in our University Dental Clinic.
- Patient treatment based on scientific evidence from third year onwards.

Additional training

- We arrange complementary activities in collaboration with renowned professionals such as seminars, courses, conferences, and congresses.
- We encourage student's scientific production, guiding them towards participation in internal and national congresses.
- Interdisciplinary and comprehensive training in the treatment of oral diseases, thereby promoting teamwork with other health professionals.
