San Pablo*

ACADEMIC YEAR
2024-2025

Enrollment Guide

School of Pharmacy

New students

Registration for non-enrollable groups

Bachelor's degree in Pharmacy (Spanish)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16604-16619, except 16614 (History and Literature Keys) and 16619 (Scientific Methodology), have laboratory practicals. Subject 16616 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
First year	
121 Theory in midday shift	501, 502, 543 y 544 999 - internships recognized for repeating a subject
141 Theory in afternoon shift	521 y 522 999 - internships recognized for repeating a subject

Bachelor's degree in Pharmacy (Bilingual)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16604-16619, except 16614 (History and Literature Keys) and 16619 (Scientific Methodology), have laboratory practicals. Subject 16616 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
First year	
236 Theory in afternoon shift	601 y 642 999 - internships recognized for repetition of a course

Bachelor's degree in Biotechnology (Spanish)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16849-16860, except 16857 (History and Literature Keys) and 16860 (Modern Language), have laboratory practices. The Modern Language course is of MANDATORY enrollment (those students who plan to recognize the course because they have accredited level C1 or higher, must enroll in **group 200**).

Theory group	Laboratory practice group
First year	
114 or 122 if 114 does not exist (200 for recognition)	505 y 546
Theory in the morning shift	999 - internships recognized for repeating a subject

Bachelor's degree in Biotechnology (Bilingual)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16849-16860, except 16857 (History and Literature Keys) and 16860 (Modern Language), have laboratory practices. The Modern Language course is of MANDATORY enrollment (those students who plan to recognize the course because they have accredited level C1 or higher, must enroll in **group 200**).

Theory group	Laboratory practice group
First year	
223 or 122 if 223 does not exist (200 for recognition)	605, 606 y 647
Theory in noon shift (mornings in S2)	999 - internships recognized for repeating a subject

Dual Bachelor's Degree in Pharmacy + Biotechnology (Spanish)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 17152-17169, except 17164 (History and Literature Keys) and 17169 (Scientific Methodology), have laboratory practicals. The subject 17165 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
First year	
114	531 and 532 (1st half year) and 551 and 552 (2nd semester)
Theory in the morning shift	999 - internships recognized for repeating a subject

Dual Bachelor's Degree in Pharmacy + Biotechnology (Bilingual)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 17152-17169, except 17164 (History and Literature Keys) and 17169 (Scientific Methodology), have laboratory practicals. The subject 17165 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
	First year
226 or 223 (if 226 does not exist)	631, 632 and 633 (first half) and 642, 651 and 652 (second half)
Theory in the morning shift	999 - internships recognized for repeating a subject

Dual Bachelor's Degree in Pharmacy + Nutrition (Spanish)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16988-16700, except 16991 (History and Literature Keys), 16998 (Scientific Methodology), 16999 (Food and Culture), have laboratory practicals. The subject 16993 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
	First year
141 or 145 (if 141 does not exist)	535 (first semester) and 515 (second semester)
Theory in afternoon shift	999 - internships recognized for repeating a subject

Dual Bachelor's Degree in Pharmacy + Nutrition (Bilingual)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16988-16700, except 16991 (History and Literature Keys), 16998 (Scientific Methodology), 16999 (Food and Culture), have laboratory practicals. The subject 16993 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
	First year
236 or 145 (if 236 does not exist)	635 (first semester) and 615 (second semester)
Theory in afternoon shift	999 - internships recognized for repetition of a course

Dual Bachelor's Degree in Pharmacy + Optics (Spanish)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 19791-19804, except 19794 (History and Literature Keys) and 19803 (Scientific Methodology), have laboratory practicals. The subject 19799 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
	First year
141 or 380 (if 141 does not exist)	521 and 522, or 570 (if 521 does not exist). ni 522)
Theory in the afternoon shift	999 - internships recognized for repetition of a subject

Dual Bachelor's Degree in Pharmacy + Optics (Bilingual)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 19791-19804, except 19794 (History and Literature Keys) and 19803 (Scientific Methodology), have laboratory practicals. The subject 19799 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
	First year
236 or 380 (if 236 does not exist)	635 (first semester) and 615 (second semester) or 570 if the above do not exist
Theory in afternoon shift	999 - internships recognized for repetition of a subject

Dual Bachelor's Degree in Pharmacy + Business Administration (Spanish)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 18324-18339, except 18326 (History and Literature Keys), 18337 (Scientific Methodology), 18327 (Mathematics I), 18328 (Statistics I), 18329 (Creative Thinking), 18330 (Fundamentals of Business Management), 18338 (Business Law) and 18339 (Fundamentals of Marketing) have laboratory practicals. Subject 18332 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
	First year
141 or 880 (if 141 does not exist)	518
Theory in noon and afternoon shifts	999 - internships recognized for repetition of a course

Dual Bachelor's Degree in Pharmacy + Business Administration (Bilingual)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Subject 18332 (Chemical Experimentation) only has theoretical-practical groups, with the same name code as the practical groups of other subjects.

Theory group	Laboratory practice group
First year	
236 or 880 (if 236 does not exist)	658 (first semester) and 618 (second semester)
Theory in noon and afternoon shifts	999 - internships recognized for repeating a subject

Bachelor's degree in Nutrition

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16756-16764, except 16758 (History and Literature Keys), 16763 (Modern Language) and 16760 (Food and Culture), have laboratory practices. The Modern Language course is of MANDATORY enrollment (those students who plan to recognize the course because they have accredited level C1 or higher, must enroll in group 200).

Theory group	Laboratory practice group
	First year
145	528 and 529 (first half) and 508 and 509 (second half)
Theory in afternoon shift	999 - internships recognized for repetition of a course

Bachelor's degree in Optics

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 19736-19745, except 19740 (Keys to Contemporary History), have laboratory practicals.

Theory group	Laboratory practice group
First year	
380	570 y 571
On-site theory and blended learning tutorials	999 - internships recognized for repeating a subject

Bachelor's degree in Nutrition (CGCOF agreement)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**. The Secretary's Office may modify this request for organizational reasons, always informing the interested party of the changes to be made. **Enrollment in the internship groups is done by the Secretary's Office, in strict order of enrollment.**

Students who have passed internships in previous years and wish to have them recognized must register in the **group of recognized internships 999**. The Academic Secretary's Office, together with the corresponding departments, will check this application and inform the students if they meet the requirements for recognition.

If there is any incidence in the enrollment, register in **group 911**.

Groups

All 1st year courses, codes 16756-16764, except 16760 (Food and Culture), 16773 (Marketing, Economics and Business), 16782 (Social Doctrine of the Church) and 16785 (Legislation and Professional Ethics) have laboratory practices.

Theory group	Laboratory practice group
	First year
385	581 y 582
Theory in blended tutorials	999 - internships recognized for repeating a subject

Bachelor's degree in Optics (CGCOF agreement)

Enrollment in the theory groups will be made according to the code indicated in each itinerary. Please note that the choice of groups and schedules is, in principle, **a preference**.
