Universidad CEU San Pablo
**THE PLACE
TO BE**

Universidad CEU San Pablo

THE PLACE TO BE

Education should not only be about the chosen field of study (Social, Experimental, Health Sciences, etc.). It should be more **comprehensive**: all training should be **professionally empowering** and **allow us to grow as a person**. In order to achieve this, at Universidad CEU San Pablo we give our students solid values, which are based on Christian Humanism.

These pillars have allowed Universidad CEU San Pablo to set the standards of higher education. Today, many of our alumni are some of the most qualified and recognized professionals of our country, and are now sharing the school's values and spirit.

For these reasons, we hope and trust that, when you choose **what you want to be and the best School to get you there**, you will decide on Universidad CEU San Pablo. We look forward to starting this journey with you, being there for you along the way, and taking you to the finish line.

THE 5 PILLARS OF OUR EDUCATION

80+

YEARS TEACHING
HIGHER EDUCATION

A PRESTIGIOUS
FACULTY

INTERNATIONALLY
DRIVEN

CORPORATE
DRIVEN

TEACHING
VALUES

THE SCHOOL OF MEDICINE

For over 40 years, the Universidad CEU San Pablo School of Medicine has been true to the exemplary motto ***E pluribus unum***, which is Latin for “Out of many, one”. The School’s mission is to generate knowledge through research, acquire knowledge through learning, and apply knowledge through practice.

As a student, you are given the chance to benefit from our international focus by participating in one of our international exchange student programs. You will also leverage our corporate mindset and broaden your career prospects by working at a hospital (HM Hospitals Group), at our dental clinic, or at various public and private health institutions.

We will ensure that you become a competent professional. Health care providers are known for their commitment to society. At the School, we look forward to seeing you improve the quality of life of others, by providing cure whenever possible, and offering relief and comfort.

10 REASONS TO STUDY AT UNIVERSIDAD CEU SAN PABLO

01

TRADITION

More than 80 years
of experience.

02

QUALITY

Our study plans are
carefully designed to
ensure rigorous learning,
demanding classes,
and the highest teaching
requirements.

03

RESEARCH

We allot a great portion
of our resources to
projects seeking to
improve real problems
in today's world.

04

SCHOLARSHIPS AND FINANCIAL AID

Our university tops the list,
among private Schools
in Spain, for the number
of scholarships granted to
students.

05

SCHOOL LIFE

In addition to our academic
offer, Universidad CEU San
Pablo offers many
opportunities to participate
in various activities that
enrich and complement
your school life.

06

INTERNATIONALLY DRIVEN

Students have access to the
most prestigious universities
in the world with international
and bilingual degrees,
programs and internships
abroad, our Summer
University, and international
guest professors.

07

FACULTY

Our top-of-the-line team
includes more than
550 PhDs. All of our
professors are highly
experienced professionals
and researchers.

08

INTERNSHIPS AND CAREER PROSPECTS

We require and facilitate
that our students complete
internships before
graduating to ensure that
they learn the necessary
skills to establish a career
in the real world.

09

GRADUATE AND POSTGRADUATE PROGRAMS

Our PhD programs meet the
highest quality standards,
as certified by the Spanish
National Agency for Quality
Assessment and Accreditation
(ANECA). We also offer more
than 46 master's programs
for those seeking to become
specialized.

10

OUR FACILITIES

Students can enjoy
state-of-the-art facilities
and equipment, which
is available to them any
time.

INTERNSHIPS AND JOBS

In recent years, **92%** of Universidad CEU San Pablo undergrad students have been able to **join the work force** shortly after graduation, with the percentage rising to **94%** for graduate and postgraduate students.

These impressive numbers can be explained by our close ties to the professional world, the internships we offer at top-notch companies (more than **8,000 internship agreements**), and our individual career orientation services.

These are just some of the companies at which our **School of Medicine** students may complete an internship:

92%+
EMPLOYABILITY RATES
FOR UNDERGRAD STUDENTS

94%+
EMPLOYABILITY RATES
FOR GRAD STUDENTS

8,000+
INTERNSHIP
AGREEMENTS

CAREER ORIENTATION SERVICES

We want to be part of every step of the journey our students and alumni take when shaping their career. We provide professional orientation services not only for the immediate future but also long term.

PROPRIETARY DEGREE IN VALUES AND LEADERSHIP

We believe in comprehensive education and training. Therefore, we offer a **Proprietary Degree in Values and Leadership**.

This initiative, first in Spain, promotes the development of social skills and abilities for leadership, teamwork, persuasive communication, decision-making, change management, and the development of transversal vision and relations.

5,500+
OFFERED
INTERNSHIPS

INTERNATIONALLY DRIVEN

STUDY-ABROAD PROGRAMS

The new challenges of an increasingly globalized world are today's reality, that is why Universidad CEU San Pablo has **more than 350 international agreements**.

Thanks to these programs, including the Erasmus+ Program, students could potentially enroll in **several study-abroad options** during their Bachelor's degree.

Visit www.uspceu.com for a list of all places where you may complete your degree.

350+
INTERNATIONAL
AGREEMENTS

LANGUAGE DRIVEN

In addition to having the opportunity to complete most Bachelor's Degrees in a bilingual or English-only mode, the University has agreements with the **British Council** and the **Goethe Institut**, which will allow students to master their English and German at a professional level.

ENGLISH-ONLY AND BILINGUAL BACHELOR'S DEGREES FOR STUDENTS OF THE SCHOOL OF MEDICINE

One thing the Universidad CEU San Pablo School of Medicine is committed to is an international focus. We have agreements with foreign universities designed to enrich our students' education while exposing them to other cultures and communities. An international degree makes you stand out at the job market and enhances your professional skills.

Internationalization is all about **expanding horizons and having a globalized vision of the world**. At Universidad CEU San Pablo you will have the chance of completing your degree in one of two modes: **bilingual (English-Spanish)** or **English-only**:

- Dentistry (English-only)
- Physiotherapy (English-only)

English-only: 100% of credit units are taught in English.

STUDY PLANS

BACHELOR'S DEGREE IN MEDICINE

FEATURES

Language Options:

☒ Spanish ☐ English ☐ Bilingual

Objectives:

- Having our students become professionals with a strong commitment to a more humane and caring society.
- Providing excellent scientific education and a solid health care and research foundation.
- Offering rigorous practical training both at our laboratories and at HM Hospitals.

CAREER PROSPECTS

- Professional specialties by taking the MIR exam (to become a resident physician). This system allows free circulation of physicians throughout the European Union.
- Clinical practice in public and private health care institutions
- Health sector: health care, community care and promotion of health, both at public and private facilities
- Teaching and research. General and clinical research
- Hospital and health care management
- A career as a military physician
- Institutional and non-governmental organizations
- New technologies for the medical field: remote diagnostics, telemedicine, etc.
- Sports medicine, for high-level athletes
- Insurance companies: prevention and treatment of work and traffic accidents

BACHELOR'S DEGREE IN PHYSIOTHERAPY

FEATURES

Language Options:

☒ Spanish ☒ English ☐ Bilingual

English: 100% of credit units are taught in English.

Objectives:

The Bachelor's Degree in Physiotherapy is designed to prepare our students for any of the many careers they can pursue after graduation, whether at the private sector (at doctors' offices and clinics), or the public sector (at a hospital, as occupational therapists, in social and health care environments, etc.), both in Spain and abroad.

CAREER PROSPECTS

Future alumni with this Degree will have a broad range of career options to choose from both in the public and private sectors:

- Physical Therapist in own private practice
- Physical Therapist at public hospitals, primary care clinics, and specialized clinics
- Physical Therapist at private hospitals, clinics, and facilities
- Health care facilities' Researcher and Manager

BACHELOR'S DEGREE IN GENETICS

FEATURES

Language Options:

☒ Spanish ☐ English ☐ Bilingual

About this Degree:

This Bachelor's Degree is geared towards students who want to study the genetic principles of live organisms, with the main focus being the health care field and the different applications that genetics have.

The degree is a very attractive option for those captivated by the knowledge, application and research of different fields of biology and medicine, as they pertain to the field of genetics: biomedicine, genomics, forensic genetics, bioethics, etc.

CAREER PROSPECTS

- Diagnosis of genetic diseases and patient and family counseling
- Forensic genetics, with applications such as biologic sample analysis in crime scenes, natural disasters, and paternity tests
- Genealogical studies, genetic analysis applied to species and subspecies classification, determining the intactness, diversity and conservation of threatened species
- Genetic services for biotechnology and pharmaceutical companies
- General, applied and clinical research in fields as diverse as human genetics and genomics, molecular genetics, animal, plant and microorganism genetics, species and subspecies evolution, human evolution, etc.

First Year

Mathematics	6
General Genetics	6
General Biochemistry	6
Zoology	6

UNIVERSITY LIFE

The Student Affairs and University Services Office manages extracurricular activities aimed at enriching the school's life.

We would love for you to turn to your hobbies in a university environment and to develop new interests and relationships to complement your education.

EXTRACURRICULAR ACTIVITIES

CULTURAL ACTIVITIES

Gastronomy, theater, music, movies, opera, traveling, debate forums, creativity contests, etc.

 @CulturalesCEU

 @USPCEU.Actividades.Culturales

SPORTS ACTIVITIES

We host internal competitions and participate in local and national inter-university tournaments.

 @DeportesUSPCEU

 @DeportesUSPCEU

PASTORAL ACTIVITIES

Open discussion communities, cultural visits, retreats, pilgrimage routes, seminars, debates, etc.

VOLUNTEERING OPPORTUNITIES

Non-profit and awareness campaigns, activities to help those in need, the poor, or marginalized groups.

 @USPCEU.Voluntariado

YOUR CAMPUS

ONE-ON-ONE TUTORING

We offer one-on-one tutoring programs, where students are able to discuss their daily challenges and receive support and reassurance from their mentor.

ACADEMIC AND SCIENTIFIC ACTIVITIES

We participate in national and international conferences, talks, seminars, clinical sessions, courses, workshops, etc., about a wide range of current health and scientific issues.

CLINICAL PRACTICES

These include, but are not limited to, practices at hospitals pre-qualified to teach students, at our School's Dental Clinic, at institutions specialized in psychology and physiotherapy, at primary care clinics, etc.

CUTTING-EDGE RESEARCH AND R+D+I EQUIPMENT

The School has state-of-the-art facilities for research, development and technological innovation. The Institute for Applied Molecular Medicine offers 10 interdisciplinary programs in various medical and surgical specialties, with international agreements in place.

INTERNATIONAL PROJECTION

We have over 30 international agreements with universities and biomedical research institutions around the world, thus encouraging international exchange-student programs.

SCHOLARSHIPS AND FINANCIAL AID

The Universidad CEU San Pablo Foundation is the private educational entity with the highest amounts allotted for scholarships and financial aid in all of Spain.

Every student's application is considered carefully and individually taking into account their personal situation, as well as their socioeconomic and family circumstances.

A committee is assigned to each application and the aid is distributed according to the needs and circumstances that the student presents.

Our goal is that no student is left out of the Degree they want to pursue due to financial reasons.

SCHOLARSHIPS FROM THE ASOCIACIÓN CATÓLICA DE PROPAGANDISTAS

The *Asociación Católica de Propagandistas* (Catholic Association of Propagandists, ACdP) will award one **“Padre Ángel Ayala” (Father Angel Ayala) scholarship** to the winner candidate who wishes to complete the Bachelor's Degree in Humanities, and one **“Beato Luis Belda” (Blessed Luis Belda)** to the winner candidate who wishes to complete the Bachelor's Degree in History or Art History. These two scholarships cover 90% of the total costs of the School.

Specific criteria can be found in:
www.uspceu.com/becasyayudas

CEU MERIT PROGRAM AND CEU MERIT PROGRAM 100

CEU MERIT PROGRAM 100

This program awards scholarships to students with outstanding GPAs covering all costs of the Bachelor's Degree except enrollment. To be eligible, freshman students are required to have had an “A” (*sobresaliente*, in the Spanish system) average in high school. The scholarship can be renewed annually as long as the student keeps their “A” average.

CEU MERIT PROGRAM

This program awards scholarships covering 65% of the costs of the Bachelor's Degree. To be eligible, a “B” (*notable*, in the Spanish system) average is required. These scholarships also take into consideration the family income and household size (income/household members). The scholarship can be renewed annually as long as the student keeps the required average.

TEACHING-BENEFIT AID

The Universidad CEU San Pablo Foundation, with a mission to support teaching-benefit and social causes, facilitates access to the degrees offered by the Universidad CEU San Pablo to students after taking into consideration their academic performance and their socioeconomic and family situation.

A special committee is appointed by the General Directorate of the Foundation to review all submitted applications and award financial aid according to the needs and circumstances of each applicant. Eligibility criteria remain the same after the initial approval for subsequent years.

PUBLIC AND PRIVATE SCHOLARSHIPS AND FINANCIAL AID

Students from Universidad CEU San Pablo can apply to scholarships and financial aid as regulated by the Royal Decree 1721/2007, dated December 21, and by the Ministerial Decree published yearly by the Ministry of Education, Culture and Sports.

There are similar options offered by the Autonomous Communities and other public and private entities.

SCHOLARSHIPS FOR UNIVERSITY CLASSES AND CHOIR

This scholarship is designed to have permanent choir at the University. The scholarship requires participation in all events where the choir is required by the Universidad CEU San Pablo or the bodies and works of the Asociación Católica de Propagandistas (ACdP), as well as in other artistic events related to the choir activities themselves.

The application process has two screenings: one artistic-vocal, and the other academic. Both screenings must be passed in order to receive this scholarship.

CEU TALENT BRIDGE

The Universidad CEU San Pablo has a financial aid program for students who have completed pre-university classes abroad and have enrolled for the first year at our School.

The program offers up to 50% discount in tuition. Eligibility criteria include having a good GPA. The student's profile and language proficiency will also be considered.

The financial aid can be renewed for all subsequent years, as long as the same eligibility criteria are met.

INSURANCE AND LOANS

The Universidad CEU San Pablo has an agreement with Banco Santander to support students by facilitating their access to university.

In addition, all students at Universidad CEU San Pablo, regardless of their Degree, automatically receive an Education Continuity Insurance upon enrollment, at no cost to them, which ensures that they will be able to finish their education at the University in the event of the decease of their father, mother, or person legally responsible for payment of tuition fees.

RECTOR SCHOLARSHIPS FOR ACADEMIC EXCELLENCE

This scholarship for academic excellence recognizes and awards students with the best academic records at the University. They give a 50% discount toward tuition fees for a given school year. To apply, the following eligibility criteria are observed: a minimum average score of 8.5/10 for Bachelor's Degrees pertaining to Legal, Human, and Social Sciences; and a minimum average score of 8/10 for Bachelor's Degrees pertaining to Experimental, Health and Technical Sciences. The scholarship is awarded for the following school year, although the student may reapply in subsequent years.

MASTER'S AND DOCTORATES PROGRAMS

We offer a wide range of Master's and Doctorate's Degrees which have been carefully designed to maximize the appeal of their students in the job market.

Our PhD programs are a one-of-a-kind opportunity for researchers of all fields who have access to our world-class facilities, making the doctorate programs worthy of ANECA's Quality Accreditation.

CEU's International Doctorate School (CEINDO) brings together an array of research teams made out of PhD holders with accredited research experience.

The university upholds the highest levels of education and academic excellence, with one-on-one mentoring programs in place.

GRADUATE AND POSTGRADUATE

- 1 We are an accredited, prestigious school with over 80 years of **experience**.
- 2 We have **collaboration agreements** with private and public businesses and institutions.
- 3 Our rich network of **CEU Alumni** and our **Scholarships and Financial Aid Policies** are one of a kind.

MASTER'S DEGREES

- Oral Surgery and Implantology
- Cell Therapy and Regenerative Medicine
- Periodontal Surgery
- Health Law
- Cardiac, Diagnostic and Therapeutic Electrophysiology
- Pediatric and Neonatal Nursing
- Emergency and Critical Care Nursing
- Cardiac Nursing
- Oncological Nursing
- Emergency and Emergency Transport Nursing
- Invasive Physiotherapy
- Pediatric Physiotherapy
- Clinical and Applied Cancer Research
- Emergencies and Disasters
- General Psychology

PROPRIETARY MASTER'S DEGREES

- Endodontics and Advanced Restorative Dentistry
- Orthodontics and Dentofacial Orthopedics

DOCTORATE'S DEGREES

Our programs are designed to offer clinical and general research skills related to care.

HEALTH SCIENCES AND TECHNOLOGY

This specialization is designed to meet the growing demand for specialized professionals in the field.

RESEARCH AND FACULTY

Good professors attract good students, and vice versa.

For this circle to work, the professor must have a double vocation: training students, and a commitment to society with contributions such as new discoveries, inventions, or creations.

RESEARCH

Research is both a means and an end for success at San Pablo CEU University. We are proud to have a team of **prestigious researchers** and we provide them with **world-class facilities** to ensure the best possible conditions for the development of their projects.

The true essence of research — that is, to discover and generate knowledge in order to improve society — is a value that Universidad CEU San Pablo strives to make its own.

FACULTY

Our team of professors are not only renowned for their extensive research experience. Many of our faculty members have been accredited by national quality assurance agencies, and go the extra mile when it comes to supporting the student community.

More than 550 professors have PhDs. In addition, many of them work in businesses outside the school, enabling them to bring a practical, hands-on approach to their students.
