

ANNEX III: RESEARCH COMMITTEE'S INDICATORS, UPDATED IN DECEMBER 2019, FOR THE EVALUATION OF THE GROUPS' RESEARCH ACTIVITIES.

- **For all the indicators:**
 - They will just considering those general indicators generated by the group members that compute according to Regulation 26/2019.
 - In case that the same indicator is used for different groups when applying for its recognition, a sharing percentage will be applied to punctuation among the groups depending on the number of participants in each of them.
- **Number of active research:**
 - Description: active research according to the criteria used in Docentia+
 - Explanation: the number of active research members of USP-CEU that compute *Number of active research*
- Publications of the last three years (2019, 2020 and 2021)
 - Description:

Experimental Sciences, Health Sciences, Architecture and Engineering		Social Sciences, Arts and Humanities	
I. JOURNALS			
JCR Category	Value	JCR or SJR Category	Value
Q1	10	Q1	10
Q2	7	Q2	7
Q3	3	Q3	3
Q4	1	Q4	1
		CIRC A+ and A	7
		CIRC B	3
		MIAR with an ICDS of at least 6	2
		CIRC C	1
		Latindex Catalogue with at least 33 met criteria for printed journals (or 36 criteria for online journals)	0.5
II. MONOGRAPHS			
Author monograph International Publisher (50 first positions of the international SPI ranking, last edition)	5	Author Monograph International Publisher (50 first positions of the international SPI ranking, last edition)	5
Experimental Sciences, Health Sciences and engineering and Architecture		Social and Legal Sciences, Arts and Humanities	
Author Chapter Book International Publisher (50 first positions of the	3	Author Chapter Book International Publisher (50 first positions of the	3

international SPI ranking, last edition)		international SPI ranking, last edition)	
Editor Monograph International Publisher (50 first positions of the international SPI ranking, last edition)	2	Editor Monograph International Publisher (50 first positions of the international SPI ranking, last edition)	2
Author Monograph National Publisher (40 first positions of the international SPI ranking, last edition)	3	Author Monograph National Publisher (40 first positions of the international SPI ranking, last edition)	3
Author Book Chapter National Edition (40 first positions of the international SPI ranking, last edition)	1.5	Author Book Chapter National Edition (40 first positions of the international SPI ranking, last edition)	1.5
Editor Monograph National Publisher (40 first positions of the international SPI ranking, last edition)	1	Editor Monograph National Publisher (40 first positions of the international SPI ranking, last edition)	1

- Explanation: the result of multiplying the number of publications of every category by its assigned value.
- *Number of publications x assigned value*
- Scientific legislative or legal compilations, books or teaching manuals or Congress minutes or proceedings will not be considered scientific production. In the case of individual publications, no more than 4 publications per group member will be considered.
- **Industrial Property (Patents and similar others) licences in the three last years (2019, 2020 and 2021).**
 - Description:

Indicator	Value
Industrial Property (Patents and similar others) licences for which the USP is the holder or co-holder of their exploitation	10

Indicator	Value
Research project of international calls archive: EU, NIH and similar others	10
Active research contract with an external entity for more than 100,000 euros for groups in the fields of Experimental Sciences, and Engineering and Architecture; and for more than 30,000 euros for the	8

fields of Social and Legal Sciences, and Arts and Humanities.	
Active Research project from the R&D and Innovation State's plan or a project obtained due to a call of a private entity highly competitive, such as, for example, the Fundación La Caixa, Fundación BBVA, etc.	7
Active Research Project with an external entity for over 40,000 euros for Experimental sciences, Health sciences and Engineering and Architecture; and for over 15,000 euros for Social and Legal Sciences and Arts and Humanities	5
Active Research Project from an R&D and Innovation Regional plan	3
Active Research Project privately financed or under an active research contract with an external entity different from the latter; only when its objective is an original research, based on a scientific methodology and which provides basic or applied results. The research project internally financed, projects from other private calls and contracts of under 40,000 euros, among others, Experimental sciences, Health Sciences and Engineering and Architecture groups or of under 15,000 euros for Social and Legal Sciences and Arts and Humanities	1,5

- Explanation: the result of a number of research projects exclusive from USP-CEU (in other words, projects in which the USP-CEU is a beneficiary or in research contracts in which USP-CEU is a signing part of the agreement) of every category multiplied by its assigned value.

In case is a project itself used for different groups in its application for recognition, a sharing percentage will be applied to the punctuation with groups depending on the number of participants per group.

Other grants that are not for research projects nor for non-financed agreements (such as for disclosure, networks generation, etc.), obtained in the framework of public calls, from public or private entities, will not be taken into consideration.

No other grants obtained in the framework of public calls for proposals, from public or private entities, other than for research projects or agreements without funding (such as dissemination projects, network generation, etc.).

No. of active projects x assigned value

- **Collaborator Researchers in 2021.**

- Description:

Indicator	Value
-----------	-------

Maríe Curie-IF, Ramón y Cajal, Juan de la Cierva, Miguel Servet...	10
Community of Madrid's Young Post-doctoral researcher	7
FPU from MECD or FPI of the MINECO associated to competitive projects	5

- Explanation: the result of multiplying for every category of researchers the assigned value by the existing number of collaborators. And, finally, the different results obtained in every category.

No. of Collaborator Researchers x the assigned value.

- **CEU/CEINDO Doctoral thesis supervision in the last three years: 2019, 2020 and 2021**

- Description:

Indicator	Value
Doctoral theses supervision by the group members that have been read in the 3 years prior to the application for recognition and that have obtained a Summa Cum Laude qualification	2

- Explanation: the result from multiplying the supervised number of USP-CEU theses by the assigned value.

No. of supervised doctoral theses x assigned value.

- **Group's size.**

- Description

Indicator	Value
6 to 8 group members	5
Over 8 group members	10

- Explanation: the assigned punctuation by group size, taking into account the total number of members.
