6. ASSESSMENT OF LEARNING

1.- ASSESSMENT SYSTEM AND CRITERIA:

ORDINARY CALL:
According to Real Decreto 592/2014 of July 11, which regulates the external academic practices of university students, the qualification of students in External Practices falls on the academic tutor. This rating will take into account:
• The tutor’s Final Report of Practices in the collaborating entity, where he values the work done by the student, with a weight on the final grade of 60%.
• With the information sent periodically by the student in the Follow-ups (in which he describes the tasks performed during the internship period) and in the Final Report that must be filled in and with all the information received from the company tutor, the tutor Academic qualifies the student, taking their assessment a final weight in the 40% mark.
Those students who leave without external reason abandon the external practices will suspend the subject.

EXTRAORDINARY CALL:
In this call will apply the same criteria indicated for the ordinary call.

7. PROCEDURE FOR THE OBTAINMENT AND USE OF EXTERNAL PRACTICES

1.- COURSE PROGRAMME:

All the management and follow-up of the students who carry out external academic practices is carried out through the computer application called Platform for Management of Academic Practices (PGPA), which provides chronological evidence of all important actions.

The procedure is the next:
• The student enrolled in the subject External Practices must enter the PGPA, verify their personal data and insert their Curriculum Vitae.
• Within this application you can see the offer of internships that you can access and apply to those that best fit your profile.
• Once the student is selected by an entity to carry out an internship, he / she must comply with the Annex to the Framework Agreement that the University has signed with the entity, elaborated by the COIE, which contains the important data of the same: start date, Date of completion, tasks to be performed, etc. Compliance is also achieved through the Application.
• External Practices are supervised by two tutors:
  O An Academic Tutor (professor of the Degree).
  O A Tutor in the Entity, designated by the company or institution (public or private) where the student performs the practices.
• Throughout the period of completion of the internships, the student should send, periodically and through the PGPA, follow-ups to his / her Academic Tutor (reports describing the tasks performed).
• Once the student finishes the internship period both the Tutor in the Entity and the student must complete a Report or Final Report, also through the PGPA.
• The Academic Tutor is in charge of qualifying the subject External Practices as described in the section Systems and Criteria Evaluation.
• It is very important that the student joins the practices with his signed Annex. The trainee should contact his / her Academic Tutor to resolve any questions about the course procedure.
• On the website of the Degree the student has at his disposal the "Curriculum Practices Guide" (http://www.uspceu.com/es/estudios/grado/ciencias-economicas-empresariales/administracion-y-direccion-de -empresas / practices.php) in which the procedure to be followed for the execution of external practices is detailed.
