---

Here you have the latest version of the CEU San Pablo University Experts Network, a directory listing with some of the teaching staff who regularly collaborate with you in the analysis of news.

This is a sample of the multidisciplinary experts we have at the University in areas as diverse as Law, Economics, Health, Communication, Humanities, Architecture and Engineering.

With this new support tool we hope to consolidate the collaboration that, for over two decades, we, in the Communication Department at the CEU San Pablo University, have maintained with you.

Our job is to make it easier for you to arrange interviews with specialised lecturers. Do not hesitate to call us if you need to contact any of them.

We will be happy to arrange interviews.
