The new regulation of official university education established by Royal Decree 1393/2007, of October 29, 2007, as amended by Royal Decree 861/2010, of July 2, 2010, has led Spanish universities to offer Bachelor's, Master's and Doctoral programs leading to the award of the corresponding official degrees.

Since the entry into force of the aforementioned regulations and after the verification of the corresponding degrees, the universities have incorporated into their educational offerings courses leading to the award of Graduate, Master's or Doctoral degrees, with respect to which it now corresponds, in accordance with the provisions of article

3.2 of the aforementioned Royal Decree, to establish the basic requirements regarding its format, text and the procedure for its issuance.

This Royal Decree also creates the National Register of Official University Graduates, which will include, in addition to the data concerning future graduates of Spanish universities who complete their graduate, Master's or Doctoral studies, the data contained in the National Register of Official University Degrees created by Royal Decree 1496/1987, of November 6, 1987, on obtaining, issuing and homologation of university degrees, thus constituting a single reference file of Official University Graduates.

Royal Decrees 1393/2007 and 861/2010, in the highest expression of university autonomy, have made it possible for the universities themselves to create and propose, in accordance with the established rules, the courses and degrees to be offered, including the possibility of issuing joint degrees with other Spanish or foreign universities.

The present regulation includes for these cases the formats of the corresponding degrees obtained after passing joint programs in Bachelor's, Master's and Doctorate degrees. Within these programs, the Erasmus Mundus Program stands out for its excellence and sponsorship by the European Commission, and this Royal Decree determines some unique characteristics for the issuance of degrees obtained after passing the joint programs created by international consortia under this Program.

Likewise, in accordance with the provisions of Royal Decree 1044/2003, of August 1, 2003, regulating the procedure for the issuance by the universities of the European Diploma Supplement, this regulation determines the contents of the Supplement model inherent to the degrees of Graduate, Master's Degree and Doctorate.

In the process of drafting this Royal Decree, the autonomous communities have been consulted within the General Conference on University Policy and the Council of Universities and the Spanish Data Protection Agency have issued a report.

By virtue thereof, at the proposal of the Minister of Education, with the prior approval of the First Vice-President of the Government and Minister of the Presidency, in agreement with the Council of State and after deliberation of the Council of Ministers at its meeting held on July 30, 2010,

PROVIDED:
